

NOTTS COUNTY FOOTBALL CLUB

The World's Oldest Football League Club

WELFARE **PHILOSOPHY**

Notts County Football Club are committed to providing an environment in which players can develop in a positive manner in order to reach their potential. Notts County FC understands that, to achieve this, focus must also be placed on education and personal development, as well as technical and tactical. We will recognise individuals in terms of equality and diversity and demonstrate an awareness of the transitional period the players are experiencing.

Our Values:

- Developing a recruitment programme that will attract the best young players by demonstrating a commitment to quality and a caring environment.
- Promoting inclusion from parents/guardians by regularly informing them of developments and creating an environment that they feel confident enough to be part of the player's journey at Notts County.
- Ensuring players are educated and supported in all aspects of the game, including fitness and conditioning, medical, diet and nutrition, thus producing athletes that will cope and thrive with the demands of today's modern game.
